

TOYOTA CELICA 2002

THE THINGS WE CARE ABOUT.

No matter which Toyota you choose, you can be sure of two things. It will deliver the utmost in Quality, Durability and Reliability, the foundation of Toyota's reputation for excellence. And it will perform with maximum respect for the environment. You see, when we build your Toyota, we strive not only to meet your expectations, but to exceed them. Our objective is to make your driving experience better, easier, safer, more convenient, more fun and more environmentally friendly than ever before.

OUR COUNTRY. OUR WORLD.

Every Toyota built in Canada has a recyclable content of at least 85% — and meets or exceeds today's most stringent emission standards. All of Toyota's plants are ISO 14001 certified in order to lessen their impact on the environment. But we still constantly look for ways to improve. Most of our current lineup including the Echo, Corolla, Avalon, Sequoia and others, comply with California's strict low emission standards. And the remarkable new Toyota Prius, rated as a Super Ultra Low Emission Vehicle (SULEV), combines fuel and electrical power plants to redefine standards in fuel economy and energy efficiency. However, our concern for the environment does not stop with our vehicles. In Canada, for example, Toyota has partnered with Evergreen to launch the Toyota Evergreen Learning Grounds Program. Worldwide, the results of our commitment to the Toyota Earth Charter can be seen in innovations like Toyota's unique "smog-eating forest". All in all, it's more than you might expect from an automobile manufacturer. It's the least we expect from ourselves.

TOYOTA CELICA 2002

EXHILARATING – INVOLVING

Celica's futuristic styling blurs the line between road and race car. The 2002 Celica comes prepared with serious hardware and heavyweight punching power. A blast to drive, Celica has always utilized the benefits of racing experience. The Celica has met the challenge to one-up its legendary siblings. Each incarnation has changed, each successor evolved, to set the standards by redefining the sports coupe with cutting edge technology. Raw and visceral. Refined and responsive. And you won't have to empty your pockets to take one home. 2002 Celica. Beyond our expectations ... it's looking for that perfect stretch of open road.

Want to go for a ride?

CELICA GT

A 1.8 Litre (1794 cc) 4-cylinder, DOHC, 16-valve engine with Sequential Multipoint Electronic Fuel Injection and VVT-i (Variable Valve Timing with intelligence) is standard on the Celica GT.

CELICA GT-S

The Celica GT-S is equipped with a 1.8 Litre (1796 cc) 4-cylinder, DOHC, 16-valve engine with Sequential Multipoint Electronic Fuel Injection and VVTL-i (Variable Valve Timing & Lift with intelligence).

TOYOTA CELICA 2002

FUTURE AUTOMOTIVE STYLE IS HERE NOW

Celica style is sure to turn heads. It looks as though it was chiseled from one solid piece of aerospace alloy and then highly polished to smooth out the edges. Settle into Celica's bolstered sport seats and complete the connection. The race-inspired theme continues with controls placed according to logic and function so it's easy to grab another gear or replay your favourite CD. Vital stats are gathered with just a quick glance. Intimate but not confining. Exciting performance. The GT-S features a 6-speed manual transmission ready for your command. The anti-dive geometry helps keep Celica stable under hard braking before the corners. Turn-in response is sharp. Steering feel is direct. High in style, low on fluff. Quiet, but you can still hear the engine sing. What better place to be in control of your destiny?

Above: The futuristic styling of the Celica GT-S interior with the optional GT-S "B" package which includes leather front seat surfaces, keyless entry and a moonroof.

Left: 2002 Celica GT-S shown in Absolutely Red.

Above: The convenient 50/50 fold-down rear seat allows you to carry even more of your favourite things.

TOYOTA CELICA 2002

ENGINEERING AND SAFETY

Celica's VVT-i and VVTL-i engines are a marvel of forward thinking. Powerful, flexible and unique –

by constantly varying intake valve timing, the 1.8 Litre, 16-valve in-line 4-cylinder engine provides low-end torque and high-power with optimal efficiency. The difference between the two engines is apparent at 6,000 rpm.

With 180 HP, the GT-S' VVTL-i high-lift cams take over for better intake and exhaust at high revs. The Celica GT-S powerplant is one of the highest specific output production car engines on the planet. Technology applies

to safety as well. Celica comes standard with dual front airbags – Supplemental Restraint System (SRS), front seatbelts with pretensioners and force limiters, side-impact door beams and soft upper interior trim.

You will also find ABS (Antilock Braking System) standard on the GT-S.

The Celica shuts off its fuel delivery system if the airbags are activated. Celica's structure is made of rigid, high-tensile-strength steel. It's reinforced in key areas such as the front bumper, front side member, front floor cross member and centre floor cross member. Designed to help absorb the energy of an impact, the structure dissipates impact energy away from the cabin, helping to protect its occupants. The one-piece backframe seats are designed to limit whiplash injuries and much of the interior trim is deformable to soften head impacts. From the outset, the Celica is designed to excel at all levels. Even in ways you hopefully never have to experience.

STANDARD SAFETY FEATURES:

- 8-kmh front and rear bumpers.
- Front and rear energy-absorbing crumple zones.
- Hood hold-down hooks.
- Side-impact door beams.
- Driver and front passenger airbag Supplemental Restraint System (SRS).
- 3-point seatbelts in all seating positions.
- Emergency Locking Retractor (ELR) on driver's belt, Automatic/Emergency Locking Retractors (A/ELR) on other seatbelts.
- Front seatbelt pretensioners with force limiters.
- Soft upper interior trim.
- Centre highmount stoplamp.
- ABS (Antilock Braking System) (GT-S standard/GT optional).

Above:

1. MacPherson strut independent front suspension.
2. 180 HP 1.8 Litre DOHC 16-valve VVTL-i 4-cylinder engine (GT-S).
3. 6-speed manual transmission (GT-S).
4. Power-assisted 10.8" ventilated front disc / 10.6" solid rear disc brakes.
5. Double wishbone independent rear suspension.

*AIRBAG NOTICE

The 2002 Celica features a driver & front passenger airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the bags. In moderate frontal collisions, the airbags may not inflate, in a rear or side collision the airbags are designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. Seatbelts must be worn at all times by all occupants.

CAA[®]
PYRAMID
AWARD

Voted best for owner satisfaction, reliability and low repair frequency and cost, Toyota has earned this award 15 times in the last 19 years.

 Toyota Canada and its Dealers are proud sponsors of Canadian Special Olympics.

TOYOTA CELICA 2002

NEW VEHICLE WARRANTY SUMMARY

No Deductibles – No Transfer Fees

COMPREHENSIVE COVERAGE - 3 YEARS OR 60,000 KM

This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

POWERTRAIN COMPONENTS - 5 YEARS OR 100,000 KM

This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

MAJOR EMISSION CONTROL COMPONENTS -

8 YEARS OR 130,000 KM

This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

CORROSION PERFORATION -

5 YEARS UNLIMITED DISTANCE

Any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.
